

## *SHOULD YOU MOVE NOW...OR LATER?*

*This free informational presentation will help you and/or your family through what seems to be an overwhelming process and why it is important to have a Senior Real Estate Services expert available to help. I will answer some of the most common questions that are asked by every older adult:*

- Is my home safe for me to continue living in?
- Can my home be retro-fitted with senior-friendly and/or handicap upgrades so that I can continue to safely live in and enjoy my home?
- Can I afford to make changes to my home and pay for in-home care if needed?
- What will I do if I can no longer drive?
- Can my family assist if needed?
- Am I willing to use community support services?
- What are my options if I need to move?
- What happens to all my belongings? It's so overwhelming to think about!
- Should I buy or rent? What type of community is best?

*Helping older adults and/or their families prepare to make the changes that will keep them safe and happy as the "scenes" change in the ongoing PERFORMANCE OF THEIR LIVES!*

**PRESENTED BY: Linda Howicz - Broker, SRES  
CROSSTOWN REALTORS**
